

I live in Spain – Why would I want a UK policy that pays out in £?

At European Financial Planning Group we arrange Term Assurance and Mortgage Life Insurance with UK Insurance Companies as:

- 99% of our clients living in Spain are UK Ex-pats
- Our experience shows that the majority of UK Ex-pats return to the UK after the death of a loved one or upon developing a critical illness
 - All documentation is in English
- All claims are dealt with by English speakers in the UK

and

- We find that the premiums for £ policies are **significantly** cheaper than € denominated policies

Please note that policy premiums must be paid in £ by annual cheque or monthly direct debit. It is therefore essential that you are able to pay the premiums from a UK Bank or a branch of a UK Bank in Spain or Gibraltar.
